Queue:

1• Implement a Queue class(using arrays) with the following methods:

o enqueue()

o dequeue()

o front()

o display()

[Follow here:

https://www.geeksforgeeks.org/array-implementation-of-queue-simple/]

2• Implement a Circular queue with the same methods in the above problem statement

[Follow here:

https://www.geeksforgeeks.org/circular-queue-set-1-introduction-array-implementation/]

3• Implement a Deque (Doubly Ended Queue) with insertion and deletion allowed at both the ends.
